

DATA DELIVERY WITH SNOWFLAKE

Given the speed at which the global crypto economy operates, prompt and efficient access to data is vital. Amberdata is proud to offer its comprehensive blockchain network, crypto market, and decentralized finance data on [Snowflake Marketplace](#).

Eliminate complex data ingestion processes and accelerate time to insights by accessing Amberdata's data and analytics on Snowflake.

FULL HISTORICAL DATA

Use any of Amberdata's historical datasets through Snowflake. Download free sample datasets.

CLOUD DELIVERY

Get immediate access to comprehensive historical datasets and reduce development and integration times.

QUERY WITH SQL

Query crypto market, blockchain, and DeFi data with SQL and use any preferred visualization tool.

USE CASES

RESEARCH

Analyze large datasets to extract insights, identify trends, and make informed decisions.

RISK MANAGEMENT

Mitigate risk and identify vulnerabilities by generating models and reports.

TRADING

Use historical order book, price, and trade data to backtest and develop strategies.

COMPLIANCE

Filter through comprehensive records of transactions and ensure adherence to regulatory requirements.
