

# DIGITAL ASSET PORTFOLIO MANAGEMENT SUITE

Amberdata offers a powerful portfolio management suite, designed to give asset and portfolio managers a comprehensive view of their crypto holdings. Across blockchains and exchanges, Amberdata simplifies tracking, managing, and optimizing your digital assets, enabling you to make data-driven decisions efficiently.

## SEE YOUR ENTIRE CRYPTO PORTFOLIO, ALL IN ONE PLACE.

Our suite allows you to retrieve all of your holdings across supported blockchains, offering a seamless way to gain a complete overview of your assets. This robust suite captures your portfolio's latest balances, tracks changes in the value of your portfolio and holdings and provides insights into your entire digital asset ecosystem.

### REAL-TIME BALANCE UPDATES

See the most up-to-date snapshot of your portfolio, with details on balance changes, staked assets, & profit & loss data across all your wallets.

### PORTFOLIO TRACKING

Track your portfolio and asset activity, including all of the protocols you've interacted with and the most recent history of your transactions.

### LENDING POSITIONS

Monitor your borrowing activity & recent positions across lending protocols. See your loaned & borrowed assets, recent activity, open balances, and performance.

### DEX INSIGHTS

Get a complete view of your LP positions on DEXs. Track exchanges & pairs you're participating in, your established positions, and number of tokens involved.

### REAL-WORLD ASSET (RWA) TOKENS

View covered digital & tokenized physical assets alongside your holdings, offering a unified view of your diverse crypto portfolio.

## COMPREHENSIVE CRYPTO ASSET MANAGEMENT

Amberdata's portfolio management tools simplify the way you manage your crypto assets.

### TRACK NET WORTH IN REAL-TIME

View your overall net worth across all supported blockchains at a glance, with automatic updates and detailed insights into asset value changes.

### PREDICT FUTURE EARNINGS POTENTIAL

Use Amberdata's analytics to predict the potential growth of your assets, factoring in market movements, liquidity positions, and lending performance to guide your investment decisions.

### MANAGE PORTFOLIO AND BALANCE SHEET

See account holdings, liquidity, fees, and revenue earned across all supported blockchains all in one place, making it easier than ever to get a complete view of your assets quickly and efficiently.
